

PREFACE

This collection of abstracts was prepared on the basis of research papers submitted by the students of various universities to the organizing committee of the conference “ECON- 2025: World Economy and International Business”. The conference was held on the premises of Belarus State Economic University (BSEU) on April 18, 2025.

The International Student Scientific Conference “ECON – 2025: World Economy and International Business” is a free-of-charge annual event hosted by the Department of Business English for all students who study economics and have a good command of English. The main idea of preparing papers and presenting research findings in English is determined by the fact that over 50 percent of all research publications in the world are done in English as a lingua franca.

For the 3rd International Student Scientific Conference “ECON – 2025: World Economy and International Business” the Department of Business English invited highly professional business experts to judge the participants’ presentations and choose the best ones.
